REPUBLICANS HAVE

Thoroughly Organized by the State Committee—Work All-ways in Progress.

By October 1 the Republicans of Missouri will have perfected a more complete organization than they had previous to the election of November, 1904.

The state committee, which was organized by the Republican State Committee, has been working for some time past to perfect a more complete organization than they had previous to the election of November, 1904.

It also explains the necessity for a force of stenographers and the mail-ordering letters which have been sent out from the State Committee headquarters, on the seventh floor of the Commercial building.

There are also being distributed through the agency of the county committees in every county in the State and through the city committees in St. Louis, Kansas City and St. Joseph, an organization which reaches down into the school districts in the country, and into the precincts in the cities.

In certain localities the system has been so far perfected as to require organization by blocks. Should there be a necessity for an election called at a week's notice, the Republican State Committee would be able to get out a vote in a matter of days.

The mysterious stranger put in his appearance at Washington simply because of the work of the State Committee, and the same plans and methods have been followed without the least change of day. They will be followed until next election day, and the results will be proportionate and commensurate with the progress of organization.

Reports which come to St. Louis from different sections of the State indicate that this statement is approximately correct. There is no question that the Republican State Committee is exercising as much influence as it is capable of in the various lines of effort necessary to keep the party pure in active operation.

The force which has been organized has made good use of its time, however, and it is probable that all the work which has been done will be maintained without a break, except for the few weeks when they were bodily removed to Jefferson City during the electoral campaign.

The activity in the State headquarters was reported to have been increasing in that quarter ever since.

Secretary McCoy is reported to have made several trips into the State to stir up shrewd workers. Other members of the committee have been heard of in various sections of the State.

There is ample evidence that such efforts have been exerted as might be expected of a State political organization in the height of a heated campaign.

The main chance, as the Republicans see it, is to retain the control of the State in the hands of the party which they claim to have won in the election of 1904.

Extraordinary efforts have been made in the State to secure the election of 1908 will make it the easier for a Republican victory in the State in the national election.

Their plans are well laid and are being consummated to the satisfaction of those immediately connected with them.

As is stated by the prominent Republican who is quoted, the Republican organization will be well prepared for the election of 1908 will make it the easier for a Republican victory in the State in the national election.

KANABENSHUE SAILS FOR NEW YORK IN SIGHT OF A SMALL BOAT

Half Million Persons Thrilled by World's Fair Aeronaut's Performance Over Central Park and Broadway—Steers His Airship With and Against the Wind—Slight Accident Ends the Flight After a Successful Test.

SAYS HE WILL SAIL OVER AND UNDER BROOKLYN BRIDGE.

REPUBLICAN SPECIAL.

New York, Aug. 30.—New York has a brand-new thrill to-day when half a million persons saw Roy Knabenshue sail his airship over the city in a small boat.

Until a spark plug was torn out by the wind, the airship was in perfect control. He moved forward and back on the frame-work of the ship in directing its flight. He had the air under perfect control. He had the air under perfect control.

It was not for this accident, he says, he could have easily circled the Statue of Liberty or passed under and over the Brooklyn bridge—facts he promises to execute within a few days.

According to a report from a man at Sixty-second street and Central Park West, where the airship is housed, Knabenshue was at an angle of 45 degrees, only to find himself helpless to operate his driving apparatus. He was in a predicament.

A crowd that had gathered on the street and the release of a small amount of gas in the balloon let it settle easily on the West Drive. His reception there by a policeman was one of the interesting side lights of the occasion.

He kept his airship in the air, and it might, he was told, be a matter of a few minutes before he would be able to get down.

Knabenshue was no more anxious to remain than the policeman was to have him. It was a matter of only a few minutes to get the airship down.

At a sharp angle, it shot up until it had reached an altitude of about a thousand feet, when the airship brought it to an even keel and headed a trifle west from south. Keeping his rudder in constant motion, he headed south to turn the fish-shaped balloon from its course.

Knabenshue proceeded by short jerks, he drove the airship in a series of broadway until he had reached a point 1,500 feet above Forty-second street.

By this time the crowd of people at the top of the balloon was looking down at the city which was spread out below them.

At a sharp angle, it shot up until it had reached an altitude of about a thousand feet, when the airship brought it to an even keel and headed a trifle west from south. Keeping his rudder in constant motion, he headed south to turn the fish-shaped balloon from its course.

POLITICIANS FAVOR FOLK'S SUNDAY LID

Doctor Patillo, in Sermon at State Capital, Asks Indorsement, and Whole Congregation, Including Republicans, Arises.

REPUBLICAN SPECIAL.

Jefferson City, Mo., Aug. 30.—"You politicians, you compromisers, you traitors, I dare you to come out on this question."

This was the defiant hurled at the State capital politicians to-day by the Reverend Doctor E. C. Patillo, in a sensational sermon on Sunday law enforcement.

Doctor Patillo is the pastor of the Methodist Church, the pastor of the Methodist Church in the city, and in his audience there sat several prominent Democratic and Republican politicians, among them, Secretary of State, and some of the State capital politicians to-day by the Reverend Doctor E. C. Patillo, in a sensational sermon on Sunday law enforcement.

Doctor Patillo declared that the enforcement of the Sunday law was now an issue in State politics. He called all good citizens to align themselves with the law.

ALL LITURGISTS THE LID.

At the close of his sermon he asked all to arise who were in favor of the "lid," and every person in the church stood up.

"Thank heaven, there is still a God in Israel, and there are still men who will stand up for the law."

Doctor Patillo's sermon caused considerable excitement throughout the city to-day, as he was not among the original supporters of Governor Folger, but in the campaign espoused the cause of Judge Gantt for Governor.

The fact that the politicians in the audience also stood up for the "lid" has occasioned much comment.

While You Are in New York

Call at 409 Fifth Avenue (bet. 20th and 21st Sts.) and see Mermod, Jaccard & King's jewelry and art salerooms. Visitors cordially welcome.

JEFFERSON BARRACKS NOTES.

Captain J. B. Christian, Ninth Cavalry, returned to the barracks after an extended leave of absence. He has received a letter from his wife, who is now at West Point, N. Y., and will leave for his new post to-day.

The new schedule for firing salutes has been mounted near the flagstaff, and is now ready for use. The old schedule has been removed.

Edward L. Myers, who formerly served in the Sixth Cavalry, is now a member of Company A, in the recent detachment. He has been assigned to the post of adjutant.

Corporal Milton T. Dunn, in charge of the kitchen, lost a flying trip to Chicago last week. He was leaving for the wedding of a friend.

The post guardhouse is being fitted with desks, and it seems that the officers are all ready for the new arrangement.

Thomas H. Gorman, a deserter from Troop A, Ninth Cavalry, was captured by Edward Kirtland, a private in the Tenth Cavalry, at Fort Leavenworth.

Richardson of Company A was delivered to the post by Kirtland. He was a deserter from the Tenth Cavalry, and was captured at Fort Leavenworth.

Thomas H. Gorman, a deserter from Troop A, Ninth Cavalry, was captured by Edward Kirtland, a private in the Tenth Cavalry, at Fort Leavenworth.

Richardson of Company A was delivered to the post by Kirtland. He was a deserter from the Tenth Cavalry, and was captured at Fort Leavenworth.
